Preface

The Drug Free Schools and Campuses Regulations (34 CFR Part 86) of the Drug-Free Schools and Communities Act (DFSCA) require an institution of higher education (IHE) to certify it has adopted and implemented programs to prevent the abuse of alcohol and use or distribution of illicit drugs both by Paradise Valley Community College students and employees both on its premises and as a part of any of its activities. At a minimum each institution of higher education must annually distribute the following in writing to all students and employees:

- Standards of conduct that clearly prohibit the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees
- A description of the legal sanctions under local, state, or federal law for the unlawful possession or distribution of illicit drugs and alcohol
- A description of any drug or alcohol counseling, treatment, or rehabilitation, or re-entry programs that are available to employees or students
- A clear statement that the institution will impose sanctions on students and employees and a description of those sanctions, up to and including expulsion or termination of employment and referral for prosecution, for violations of the standards of conduct

The law further requires that the institution conduct a biennial review of its program with the following objectives: (1) determining the effectiveness of the policy and implementing changes to the Alcohol and Other Drug (AOD) program if they are needed; and (2) to ensure that the sanctions developed are enforced consistently.

The biennial review must also include a determination as to: (1) the number of drug- and alcohol related violations and fatalities occurring on the campus or as part of their activities that are reported to campus officials; and (2) the number and type of sanctions the IHEs impose on students or employees as a result of such violations or fatalities.

Paradise Valley Community College, a college of Maricopa County Community College District (MCCCD), acknowledges its legal obligation to conduct a biennial review of compliance with the Drug-Free Schools and Communities Act and authorized an administrative review to be conducted to determine if the College fulfills the requirements of the aforementioned Federal regulations.

Dr. [Jana Schwartz](#), Vice President of Student Affairs formed a committee to complete the review process. The members of the review committee include:

- Christine Berry, Administrative Specialist Senior, Student Affairs
- Dr. Norma Chandler, Manager of Student Care and Conduct
- Mike Ho, Director of Student Life
- Kathaerine Johnson, Director of Financial Aid and Veterans Services

- Commander Scott Meek, College Police
- Dr. Jim Rubin, College Counseling
- Tatum Voeller, Fitness Center Program Director

The intent of this document is to:

1. Meet the legal requirement of conducting a biennial review
2. Review and summarize the programs and activities related to alcohol and drug prevention from 2018-2020.

A. Descriptions of the AOD program elements.

1. Alcohol-Free Events

As stated in the Abuse-Free Environment, AR 2.4.7, Maricopa Community Colleges closely aligns with the Drug-Free School and Communities act of 1989 and other relevant substance abuse laws. As a college of Maricopa Community College District, Paradise Valley Community College, upholds all federal, state and District laws and policies limiting or restricting drug and alcohol use and abuse on campus. Listed below are the MCCCCD Administrative Regulations which address an Abuse-Free Environment and the Use of Alcoholic Beverages:

- AR 2.4.7 – Abuse-Free Environment-district.maricopa.edu/regulations/admin-regs/section-2/2-4
- AR 4.13 Use of Alcoholic beverages-district.maricopa.edu/regulations/admin-regs/section-4/4-13
- 2.5.2 Student Code of Conduct-district.maricopa.edu/regulations/admin-regs/section-2/2-5

Paradise Valley Community College offers a number of Alcohol-free events and activities are created and promoted throughout the campus by way of Facebook, Instagram, posters, emails, fliers, information tables and classroom announcements. These activities and events include, but are not limited to:

- Welcome week activities
- Theatre, Music and Art Events
- Student clubs and activities
- Graduation
- Student Success Fair
- Service Learning Opportunities
- Sponsored student government events
- Building openings/dedications
- Wellness Events
- Career Days and Fairs
- University visits
- Athletic Events

I. **Creation of Service Learning or Volunteer Opportunities or Required Community Service Work**

- Student Clubs, as a requirement to remain in “active” status, are required to perform over 20 hours of community service as a club
- The Office of Student Life and Leadership provides the following annual Volunteer Opportunities for Students:
 - Volunteering at the Phoenix Zoo to host children’s activities
 - Campus and Community Street Cleanup
 - Packing food boxes at Feed My Starving Children.
 - “Adopt a Family” holiday donation drive
- Service Learning opportunities are available to students through classroom/faculty participation
- Student Athletes regularly participate in community service as a part of their connection to the community
- PVCC hosts the Festival of Tales Annually, this community literacy event provides 8000 free books to children in the community.

II. **Alcohol Free Campus Facilities**

All campus spaces and facilities are alcohol and drug free in accordance with the Drug Free Schools and Communities Act Amendments of 1989, Public Law 101-226, and comply with all federal, state, and local laws pertaining to controlled substances, including alcohol. All buildings and properties at PVCC are alcohol and drug-free. The following drug and alcohol free-spaces are available for students to study or meet with friends when the college is open to the public.

- Athletic Facilities
- Fitness Center
- Cafeteria
- Library
- KSC Student Center, including a game room
- Learning Success Center
- Math Labs
- Performing and Visual Arts Center

III. **Nonalcoholic beverages promoted at events**

Paradise Valley Community College is dedicated to entirely alcohol-free events and activities for our students. No event makes any mention or promotion of alcohol or other drugs.

2. **Normative Environments**

PVCC is dedicated to entirely alcohol-free events and activities for students. NO events make mention of or promote alcohol and other drugs.

I. Pro-health Messages Publicized on Campus

- PVCC advertises many activities to support a healthy lifestyle on the webpage. Students are encouraged to enroll in classes that benefit their overall health and wellness.
- Wellness was added as a PVCC Strategic Value in 2020 to demonstrate the campus commitment to health and wellness
- Fitness Center provides information regarding fitness, nutrition, exercise, and smoking cessation at campus events.
- PVCC employees are able to utilize the Fitness Center
- Counseling Services offer a variety of wellbeing workshops throughout the academic year
- Students in AAA 115 and CPD 150 (Typically first year students) have coursework focused on developing a healthy lifestyle.

II. Academic Standards

- Academic standards are met through course competencies in every discipline at PVCC.
- PVCC offers students academic support services through tutoring, supplemental instruction, honors programming, students conferences and leadership opportunities, and writing and math support centers.
- Active Learning Strategies are encouraged
- Use of Peer Assistance Review (PAR) process for new residential faculty (faculty engaged in professional development to improve practice)

III. Faculty Encouraged to Engage in Higher Level Contact with Students

- Faculty mentors are assigned to each Athletic Team
- 15 faculty members serve as Club Advisors
- Faculty members serve as assigned leads to students in meta-major (Fields of Interest)
- High faculty participation in NSO, Recruitment, Scholarship events, etc.

IV. Student Leadership Promotes Positive, Healthy Norms through experiential education, workshops, social marketing campaigns, and recreational activities.

- Student Life and Leadership provides many opportunities for positive student engagement to include:
- Regular community service activities with Saint Mary's Food Bank
- Mental Health Awareness Week
- Puma Palooza

V. Students have Opportunities to Advise and Mentor Peers

- PVCC supports student-to-student mentorship in the Women Rising and Male Empowerment Network

- PVCC employees embedded Peer Mentors into high enrollment classes
- PVCC has 3 peer leaders who provide check-ins with all incoming students
- PVCC has a student senator representing all students district-wide
- PVCC utilizes active student peer groups such as PTK, Student Government, and Honors

3. Alcohol Availability

I. Alcohol is Banned or Restricted on Campus

Serving of alcoholic beverages is restricted at Paradise Valley Community College. In the years in which this report is concerned, 0 event(s) occurred in which alcohol was available. This required the express consent of the Chancellor of Maricopa Community College District, the closing of the venue to the public and students, and hiring of trained and registered bartenders. Paradise Valley Community College personnel are not permitted to purchase or transport alcohol. Administrative Regulation 4.13 prohibits the use of funds to purchase alcohol (with the exception of small amounts for cooking in the Culinary Institute for educational purposes) and the use of alcohol at College sponsored events. State law also regulates the service, sale, distribution and consumption of alcoholic beverages. In light of the law, Paradise Valley Community College does not permit the use, sale or distribution of alcoholic beverages.

II. Alcohol Use is Prohibited in Public Places

Paradise Valley Community College maintains a drug, alcohol, and tobacco free campus. No alcohol is permitted in public places or elsewhere on campus.

III. Delivery or Use of Kegs or Other Common Containers is Prohibited on Campus

Paradise Valley Community College prohibits alcohol on campus in any form.

4. Marketing and Promotion of Alcohol

I. Alcohol Advertising on Campus is Banned or Limited

Paradise Valley Community College campus limits severely advertisements of alcohol or alcoholic beverages.

II. Alcohol Industry Sponsorship for On-Campus Events is Banned or Limited

There are no events on campus which are alcohol industry sponsored.

III. Alcohol Promotions with Special Appeal to Underage Drinkers is Banned or Limited

Paradise Valley Community College does not participate in promotions related to drinking, underage or otherwise. Our campus and sites are located in neighborhood settings within the vicinity of bars.

- IV. Alcohol Promotions that Show Drinking in High-Risk Contexts in Banned or Limited
Paradise Valley Community College does not participate in promotions related to drinking.
- V. Pro-Health Messages that Counterbalance Alcohol Advertising are Required.
Paradise Valley Community College maintains a drug, alcohol, and tobacco free campus. This also includes the advertisement of alcohol on campus

5. Policy Development and Enforcement

B. Statement of AOD program goals and a discussion of goal achievement.

Rather than have a standalone Alcohol and Other Drug program goals, PVCC has incorporated wellness into our Strategic Values:

Wellness - We champion a campus culture that recognizes health and wellness as an integral part of learning by fostering an environment supporting the emotional, mental, physical, and social well-being of all.

Additionally, we have explored our work as a Healthy Campus:

Healthy Campus 2020 is a national effort by the American College Health Association to improve overall health on college campuses nationwide. Their initiative is to promote quality of life, healthy development, and positive health behaviors on college campuses with the overarching goals to:

- Create social and physical environments that promote good health for all.
- Support efforts to increase academic success, productivity, student and faculty/staff retention, and life-long learning.
- Attain high-quality, longer lives free of preventable disease, disability, injury, and premature death.
- Achieve health equity, eliminate disparities, and improve the health of the entire campus community.
- Promote quality of life, healthy development, and positive health behaviors.

PVCC adding Wellness as a supporting value demonstrates our commitment to our students, employees, and community, by addressing the needs of the “whole” person and aligns ourselves with the Healthy Campus 2020 initiative.

C. Summaries of AOD program strengths and weaknesses.

I. Summary of AOD Program Strengths

- Regular student events where alcohol and other drug information is disseminated
- Wellness is a strategic value at PVCC
- MCCC Student Code of Conduct, Staff Policy Manual, and Athletics Handbook address alcohol and drug policies

I. Summary of AOD Program Weaknesses

- Continue to find ways to improve the college AOD information plan and identify resources to support
- College needs to ensure a department/committee owner for AOD Programming

D. Procedures for distributing annual AOD notification to students and employees.

I. **AOD Policy - Procedures for distributing annual AOD notification to students and employees.**

AOD annual notifications are sent out annually in August. When students register after the annual notification date, they will receive the annual notification. Information and Technology services sends out annual notifications through CAMPUS CAST.

AOD Policy and Distribution

AR 4.14 - Motor Vehicle Usage

<https://chancellor.maricopa.edu/sites/default/files/4.14.pdf>

Staff Policy Manual Policy

A-4 - Employment Standards

Policy A-18 – Drug Free Workplace Policy

C-4 – Corrective Action Principles <https://hr.maricopa.edu/sites/default/files/spm.pdf>

Student Athlete Handbook & Code of Conduct

<https://gopumas.com/general/docs/conduct.pdf>

AR 2.5 – Student Rights and Responsibilities

Article III: Prohibited Conduct, 3. Conduct – Rules and Regulations

- G. Violation of any college or District policy, rule or regulation published in hard copy such as a college catalog, handbook, etc. or available electronically on the college's or MCCCCD website.
- H. Violation of federal, state or local law.
- I. Use, possession, manufacturing or distribution of illegal or other controlled substances except as expressly permitted by law.
- J. Illegal use, possession, manufacturing or distribution of alcoholic beverages or public intoxication.

Article IV: Student Code of Conduct Procedures. 2. Sanctions

- A. The following sanctions may be imposed upon any student found to have violated the Student Conduct Code:
- i. **Warning** - a written notice to the student that the student is violating or has violated institutional rules or regulations.
 - ii. **Probation** - a written reprimand for violation of specified rules or regulations. Probation is for a designated period of time and includes the probability of more severe disciplinary sanctions if the student is found to violate any institutional rules or regulation(s) during the probationary period.
 - iii. **Loss of Privileges** - denial of specified privileges for a designated period of time.
 - iv. **Restitution** - compensation for loss, damage or injury. This may take the form of appropriate service and/or monetary or material replacement.
 - v. **Discretionary Sanctions** - work assignments, essays, service to the college, or other related discretionary assignments. (Such assignments must have the prior approval of the Student Conduct Administrator.)
 - vi. **College Suspension** - separation of the student from all the colleges in the District for a definite period of time, after which the student is eligible to return. Conditions for readmission may be specified.
 - vii. **College Expulsion** - permanent separation of the student from all the colleges in the District.

<https://chancellor.maricopa.edu/public-stewardship/governance/administrativeregulations/2-students/2.5-student-rights-and-responsibilities>

E. Recommendations for revising AOD programs.

- I. Recommendations for revision of AOD Programs
 - Offer Mental Health First Aid training to staff
 - Establish a more robust campus campaign to inform students/employees about AOD resources and budget set aside for this programming
 - Support partnerships with local resources for AOD referrals for our students.

Addendums

1. Addendum 1 – Staff Policy Manual

- Administrative Regulation 2.5 – Student Rights and Responsibilities
<https://district.maricopa.edu/regulations/admin-regs/section-2/2-5>

3. Addendum-MCCCD Notifications

MCCCD DRUG AND ALCOHOL PREVENTION PROGRAMS ANNUAL NOTIFICATION

STATEMENT ON DRUG-FREE CAMPUSES

In accordance with the Drug-Free Schools and Communities Act Amendments of 1989 (Act), the Maricopa County Community College District (MCCCD) is distributing this notification to all students and employees to inform them of MCCCD's comprehensive program to prevent the use of illicit drugs and the abuse of alcohol. This notification summarizes MCCCD's programs, resources, policies, and standards of conduct; discusses health risks; highlights treatment options; and provides an overview of sanctions.

LOSS OF ELIGIBILITY DUE TO A DRUG CONVICTION

A student who is convicted of a state or federal offense involving the possession or sale of an illegal drug that occurred while enrolled in school and receiving Title IV aid is not eligible for Title IV funds. An illegal drug is a controlled substance as defined by the Controlled Substance Act and does not include alcohol and tobacco.

A borrower's eligibility is based on the self-certification on the Free Application for Federal Student Aid (FAFSA). Convictions that are reversed, set aside, or removed from the student's record, or a determination arising from a juvenile court proceeding do not affect eligibility and do not need to be reported by the student.

A student convicted of a drug-related offense while enrolled in school, and receiving Title IV aid, loses Title IV eligibility as follows:

- For the possession of illegal drugs:
 - First offense: one year from the date of conviction
 - Second offense: two years from the date of the second conviction
 - Third offense: indefinite period
- For the sale of illegal drugs:
 - First offense: two years from the date of conviction
 - Second offense: indefinite period

STANDARDS OF CONDUCT

It is the goal and policy of Maricopa County Community College District to provide a drug-free environment for all college students and employees. To achieve this goal and to comply with federal law, MCCCD prohibits the unlawful sale, distribution, dispensation, possession, and use of controlled substances on MCCCD property or as part of any of its programs and/or activities.

Students, faculty, staff and visitors of any MCCCD campus are advised to become familiar with federal, state and local laws regarding alcohol and other drugs in accordance with the campus location. Students, faculty, staff, and visitors on any MCCCD campus must: 1) abide by MCCCD policies regarding alcohol abuse and illicit drugs; 2) abide by local, state and federal laws regarding alcohol, drugs, and controlled substances; and 3) act to reduce the risks associated with the use and abuse of these substances.

MCCCD students and employees are subject to all applicable drug and alcohol policies including, but not limited to:

[AR 2.4.7 – Abuse-Free Environment](#)

[AR 4.13 – Use of Alcoholic Beverages](#)

See also the **Auxiliary Services** section for [Tobacco-Free Environment](#) and the **Appendices/Student Section** [Medical Marijuana Act](#) of the Administrative Regulations. Possession or consumption of alcohol, tobacco, and illegal drugs on MCCCDCD campus is prohibited. Pursuant to federal law, cannabis (marijuana) use is prohibited on MCCCDCD property, even for those who have a medical marijuana card.

The MCCCDCD Public Safety Department actively enforces laws pertaining to underage drinking, public consumption of alcohol, the furnishing of alcohol to underage individuals, and other alcohol laws. MCCCDCD Police also enforces drug laws.

For more information about the Maricopa County Community College District DAAPP content, contact the MCCCDCD Public Safety Department at <https://police.maricopa.edu/> or Chief David Denlinger at David.Denlinger@domail.maricopa.edu.

Overview of State Laws and Legal Sanctions

An overview of alcohol and drug offenses for Arizona is herein provided. Sanctions under federal, state, and local laws for the unlawful possession or distribution of illicit drugs and alcohol are serious and can range from civil sanctions to criminal convictions including fines and imprisonment.

Arizona Alcohol Offenses:

A person who is under the legal drinking age and who misrepresents the person's age to any person by means of written instrument of identification with the intent to induce a person to sell, serve, give or furnish liquor contrary to law is guilty of a class 1 misdemeanor. [A.R.S. § 4-241](#). In addition to any other penalties prescribed by law, a person shall pay a fine of at least two hundred fifty dollars. [A.R.S. § 4-246](#).

A person who is under the legal drinking age and who solicits another person to purchase, sell, give, serve or furnish spirituous liquor contrary to law is guilty of a class 3 misdemeanor. [A.R.S. § 4-241](#). In addition to any other penalties prescribed by law, a person shall pay a fine of at least two hundred fifty dollars. [A.R.S. § 4-246](#).

A person who is under the legal drinking age and who uses a fraudulent or false written instrument of identification or identification of another person or uses a valid license or identification of another person to gain access to a licensed establishment is guilty of a class 1 misdemeanor. [A.R.S. § 4-241](#). In addition to any other penalties prescribed by law, a person shall pay a fine of at least two hundred fifty dollars. [A.R.S. § 4-246](#).

A person who knowingly influences the sale, giving, or serving of spirituous liquor to a person under the legal drinking age by misrepresenting the age of such person or who

orders, requests, receives or procures spirituous liquor from any licensee, employee or other person with the intent of selling, giving or serving it to a person under the legal drinking age is guilty of a class 1 misdemeanor. [A.R.S. § 4-241](#).

It is a class 1 misdemeanor for a person under the legal drinking age (21 years of age) to buy, receive, or have in the person's possession or to consume spirituous liquor. [A.R.S. § 4-244](#). It is a class 1 misdemeanor for any person to sell, furnish, dispose of or give or cause to be sold, furnished, disposed of or given, to a person under the legal drinking age (21 years of age) any spirituous liquor. [A.R.S. § 4-244](#).

Alcohol violations that qualify as a class 1 misdemeanor are punishable by up to six months in jail, can include a hefty fine, may involve probation, or a combination of these.

Drug Offenses:

A person shall not knowingly possess or use marijuana, possess marijuana for sale, produce marijuana, or transport marijuana for sale. [A.R.S. § 13-3405](#). A person who possesses marijuana weighing less than two pounds is guilty of a class 6 felony, weighing less than four pounds is guilty of a class 5 felony, and weighing over four pounds is guilty of a class 4 felony. The various offenses in this statute range in severity of punishment from a class 6 felony to a class 2 felony with a range of up to 15 years imprisonment. [A.R.S. § 13-3405](#).

A person shall not knowingly possess or use a narcotic drug; possess a narcotic drug for sale; possess equipment or chemicals for the purpose of manufacturing a narcotic drug; manufacture a narcotic drug; administer a narcotic drug to another person; obtain or procure the administration of a narcotic drug by fraud, deceit, misrepresentation or subterfuge; or transport for sale, import into this state, offer to transport for sale or import a narcotic drug. [A.R.S. § 13-3408](#). Violations include a class 4 felony to a class 2 felony with a range of up to 15 years imprisonment. Additionally, a fine of not less than \$2000 or three times the value of the narcotic drugs involved, whichever is greater (up to a statutory maximum) [A.R.S. § 13-3408](#).

It is unlawful for any person to use, or to possess with intent to use, drug paraphernalia to plant, propagate, cultivate, grow, harvest, manufacture, compound, convert, produce, process, prepare, test, analyze, pack, repack, store, contain, inject, inhale or otherwise introduce into the human body a drug. "Drug" means any narcotic drug, dangerous drug, marijuana or peyote. "Drug paraphernalia" means all equipment, products and materials of any kind which are used, intended for use or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, concealing, injecting, ingesting, inhaling or otherwise introducing into the human body a drug violation. Violators are guilty of a class 6 felony. [A.R.S. § 13-3415](#).

Additional information on Arizona drug offenses and penalties can be found at [A.R.S. §§ 13-3401 – 13-3423](#).

Federal Law and Legal Sanctions

It is unlawful for any person knowingly or intentionally to possess a controlled substance unless such substance was obtained directly or pursuant to a valid prescription or order from a practitioner. Federal penalties include, but are not limited to:

- For first conviction of simple possession, up to one year of imprisonment, fine of \$1000, or both. Length of imprisonment and fines increase with further convictions. 21 U.S.C. § 844.
- Forfeiture of property. 21 U.S.C. § 853.
- Discretionary denial of federal benefits, including student loans or professional license. 21 U.S.C. § 862.

Additional offenses and penalties can be reviewed at <https://www.deadiversion.usdoj.gov/21cfr/21usc>.

According to 21 U.S.C. § 1091(r), a student who is convicted of any offense under federal or state law, involving the possession or sale of a controlled substance, for conduct that occurred during a period of enrollment for which the student was receiving any federal grant, loan, or work assistance will not be eligible to receive any grant, loan, or work assistance from the date of conviction for the period of time specified:

| Conviction for Possession of a Controlled Substance | Period of Ineligibility |
|---|-------------------------|
| 1st Offense | 1 year |
| 2nd Offense | 2 years |
| 3rd Offense | Indefinitely |
| Conviction for Sale of a Controlled Substance | Period of Ineligibility |
| 1st Offense | 2 years |
| 2nd Offense | Indefinitely |

See [21 U.S.C. § 802\(6\)](#) for the definition of “controlled substance.”

Disciplinary Sanctions, Educational Interventions, and Administrative Actions

Students

Students who violate the college drug or alcohol policy are subject to disciplinary sanctions, educational interventions and/or administrative actions. Disciplinary sanctions include expulsion or suspension. Educational interventions may include the requirement to participate in individual or group learning sessions, community service experiences and/or risk assessments addressing alcohol or other drug abuse. Administrative actions may include warnings, probation, interim suspension, or completion of a drug or alcohol education or rehabilitation program. Violators may also be referred for prosecution.

Employees

Sanctions will be imposed on an employee who violates college drug or alcohol policies, which may include progressive discipline, a written reprimand, suspension, demotion, or termination of employment. Sanctions may also include the requirement that the employee complete a drug or alcohol education or rehabilitation program. Violators may be referred for prosecution.

Health Risks

Alcohol

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person’s ability to learn and remember information. Very high doses can cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effect just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other people of becoming alcoholics. For more information see [here](#).

Illicit Drugs

The use of illicit drugs can lead to a variety of health risks, depending on the drug or combination of drugs used. A description of common drugs of abuse, their uses and effects are provided in

Appendix A.

For further information, visit the campus drug prevention website at <https://www.campusdrugprevention.gov/drugshttps://district.maricopa.edu/consumer-information/alcohol-drug-abuse-prevention>.

Drug and alcohol treatment and rehabilitation programs are available for students through MCCCCD community partnerships and for employees through the Employee Assistance Program.

Prevention and Education:

MCCCCD uses a comprehensive approach to alcohol and other drug abuse prevention that:

- Addresses multiple factors that influence student alcohol and other drug use including individual, peer, institutional, and community factors.
- Provides a continuum of programs and services that range from prevention through treatment.
- Establishes goals, specific outcomes and relevant strategies that are grounded in campus specific data.
- Implements evidence-based strategies and best practices.
- Incorporates education, environmental management, early intervention and enforcement strategies.
- Integrates proactive prevention and intervention strategies.
- Develops collaborations and coalitions, and forms partnerships with academic and student affairs, management, students, parents and the surrounding community.
- Incorporates evaluation as a meaningful tool for planning and program improvement.

| DRUG CATEGORY | What is it? | Street Name | How is it used? | How does it affect the body? |
|----------------------|---|--|---|--|
| Cannabis (Marijuana) | Marijuana – Mind-altering psychoactive drug. Dry, shredded, green/brown mix of flowers, stems, seeds and leaves from the cannabis sativa plant. THC (delta-9-tetrahydrocannabinol) is the main ingredient that produces the psychoactive effect. Addictive. | Marijuana – Aunt Mary, BC Bud, Chronic, Dope, Gangster, Ganja, Grass, Hash, Herb, Joint, Mary Jane, Mota, Pot, Reefer, Sinsemilla, Skunk, Smoke, Weed, Yerba | Smoked as a cigarette or in a pipe or bong • Smoked in blunts (cigar emptied of tobacco and filled with marijuana, and sometimes mixed with additional drugs) • Mixed with food (edibles) • Brewed as tea | Relaxation, disinhibition, increased appetite, sedation, increased sociability • Effects memory and learning • Difficulty in thinking and problem solving • Hallucinations • Impaired judgment, reduced coordination • Distorted perception • Decreased blood pressure, increased heart rate, dizziness, nausea, tachycardia • Confusion, anxiety, paranoia, drowsiness • Respiratory ailments |

| | | | | |
|--|--|--|---|--|
| <p>Depressants Includes Barbiturates, Benzodiazepines, GHB- GammaHydroxybut yric Acid, Ryohyponl</p> | <p>Barbiturate s – Depressant drug used to help sleep, relieve anxiety and muscle spasms, prevent seizures. Prescribed names: Fiorina®, Pentothal®, Seconal®, or Nembutal®</p> | <p>Barbiturates – Barbs, Block Busters, Christmas Trees, Goof Balls, Pinks, Red Devils, Reds & Blues, Yellow Jackets</p> | <p>Barbiturates • Swallowing a pill or injecting a liquid</p> | <p>Barbiturates • Lack of inhibition, relief of anxiety, sleepiness; impairment of memory, judgment and coordination; irritability • Paranoia and suicidal thought • Tolerance is easily developed, requiring larger doses each time • Overdose can occur easily and can be fatal. Signs: Shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma</p> |
| <p>Depressants Includes Barbiturates, Benzodiazepines, GHB- GammaHydroxybut yric Acid, Ryohyponl</p> | <p>Benzodiaze pines – Depressant s that produce sedation, induce sleep, relieve anxiety and prevent seizures. Available in prescription pills, syrup and injectable preparation . Prescribed as Valium®,</p> | <p>Benzodiazepi nes – Benzos,Down ers, Nerve Pills, Tranks</p> | <p>Benzodiazepine s • Orally or crushed and snorted</p> | <p>Benzodiazepines • Calming, euphoria • Vivid or disturbing dreams • Amnesia, hostility, irritability • Overdose may be fatal. Signs: shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma</p> |

| | | | | |
|-----------|--|--|---|---|
| Inhalants | <p>Inhalants – invisible, volatile substances found in common household products, e.g., felt tip markers, spray paint, air freshener, typewriter correction fluid, butane, computer cleaners, glue. Includes more than 1,000 products that are harmful when inhaled.</p> | <p>Inhalants – Huff, Rush, Whippets, Gluey</p> | <p>Inhalants • Inhaled through nose or mouth • Huffing inhalant-soaked rag stuffed in mouth • Inhaling from balloon with nitrous oxide • Sniffing or snorting the substance from a container or dispenser • Inhaling fumes from substances in a bag</p> | <p>Inhalants • Slight stimulation, feeling less inhibition, loss of consciousness • Damages sections of brain controlling thinking, moving, seeing • Slurred speech, loss of coordination, euphoria, dizziness • Long term use may cause damage to nervous system and organs • Sudden sniffing death may occur from suffocation or asphyxiation</p> |
|-----------|--|--|---|---|

| | | | | |
|--|--|--|--|---|
| <p>Narcotics (Opioids) Includes Fentanyl, Heroin, Hydromorphone, Methadone, Morphine, Opium, Oxycodone</p> | <p>Fentanyl – Fentanyl is a synthetic opioid that is 80- 100 times stronger than morphine. Pharmaceu tical fentanyl was developed for pain manageme nt treatment of cancer patients, applied in a patch on the skin. Because of its powerful opioid properties, Fentanyl is also diverted for abuse. Fentanyl is added to heroin to increase its potency, or be disguised as highly potent heroin. Many users believe that they are purchasing heroin and actually don't know that they are purchasing</p> | <p>Fentanyl – Apace, China Girl, China Town, China White, Dance Fever, Goodfellas, Great Bear, He-Man, Poison and Tango & Cash</p> | <p>Fentanyl • Clandestine fentanyl is typically injected, or inhaled like heroin</p> | <p>Fentanyl • Intense, short- term high • Temporary feelings of euphoria • Slowed respiration and reduced blood pressure • Nausea • Fainting • Seizures • Death</p> |
|--|--|--|--|---|

| | | | | | |
|--|--|--|--|--|--|
| | <p>fentanyl – which often results in overdose deaths. Clandestinely-produced fentanyl is primarily manufactured in Mexico.</p> | | | | |
|--|--|--|--|--|--|

| | | | | |
|--|---|--|--|---|
| <p>Narcotics (Opioids) Includes Fentanyl, Heroin, Hydromorphone, Methadone, Morphine, Opium, Oxycodone</p> | <p>Heroin – An opiate (narcotic) drug processed from morphine and extracted from certain poppy plants. Heroin comes in white or brownish powder, or a black sticky substance known as “black tar heroin.” Often “cut” with other drugs or substances such as sugar or powdered milk. User is unaware how much actual heroin is being used, creating likelihood of overdose.</p> | <p>Heroin – Big H, Black Tar, Chiva, Hell Dust, Horse, Negra, Smack, Thunder</p> | <p>Heroin • Injected, smoked, or sniffed/snorted. High purity heroin is usually snorted or smoked.</p> | <p>Heroin • Highly addictive. • Initial surge of euphoria or “rush,” followed by a twilight state of sleep and wakefulness • Physical symptoms of use include: drowsiness, respiratory depression, constricted pupils, nausea, a warm flushing of the skin, dry mouth, and heavy extremities. • Overdose symptoms: slow and shallow breathing, blue lips and fingernails, clammy skin, convulsions, coma, and possible death.</p> |
|--|---|--|--|---|

| | | | | |
|---|---|--|---|---|
| Narcotics (Opioids) Includes Fentanyl, Heroin, Hydromorphone, Methadone, Morphine, Opium, Oxycodone | Hydromorphone – Prescribed at Dilaudid®, it is used as a pain reliever. Hydromorphone is 2- 8x more potent than morphine but shorter duration and greater sedation. Available in tablets, rectal suppositories, oral solutions, and injectable formulations. | Hydromorphone – D, Dillies, Dust, Footballs, Juice, Smack | Hydromorphone • Orally or by injecting tablets dissolved in solution. | Hydromorphone • Euphoria, relaxation, sedation, and reduced anxiety. It may also cause mental clouding, changes in mood, nervousness, and restlessness • Constipation, nausea, vomiting, impaired coordination, loss of appetite, rash, slow or rapid heartbeat, and changes in blood pressure. • Overdose symptoms: severe respiratory depression, stupor or coma, lack of skeletal muscle tone, cold and clammy skin, constricted pupils, and reduced blood pressure and heart rate. |
| Narcotics (Opioids) Includes Fentanyl, Heroin, Hydromorphone, Methadone, Morphine, Opium, Oxycodone | Methadone – Synthetic opioid prescribed as Methadose® and Dolphine®. Tablet, capsule, any liquid, used for detoxification and maintenance | Methadone – Amidone, Chocolate Chip Cookies, Fizzies, Maria, Pastora, Salvia, Street Methadone, Water | Methadone • Swallowed as pill or liquid or injected. | Methadone • Sweating, itchy skin, or sleepiness • Addictive • Overdose effects include shallow breathing, stomach spasms, clammy skin, convulsions, weak pulse, coma, and death |

| | | | | |
|--|---|--|---|---|
| | e of opioid addiction and as a pain reliever for moderate to severe pain. | | | |
| Narcotics (Opioids) Includes Fentanyl, Heroin, Hydromorphone, Methadone, Morphine, Opium, Oxycodone | Morphine – Non-synthetic narcotic (opioid) made from opium, prescribed as Kadian®, MSContin®, Oramorph®, MSIR®, RMS®, Roxanol®. Very effective for pain relief, high potential for abuse. | Morphine – Dreamer, Emsel, First Line, God's Drug, Hows, MS, Mister Blue, Morpho, Unkie | Morphine • Injected • Oral Solutions • Tablets, capsules, suppositories | Morphine • Euphoria and relief of pain • Addictive • Overdose signs: cold and clammy skin, sleepiness, lowered blood pressure and slow pulse rate, comma and possible death |
| Narcotics (Opioids) Includes Fentanyl, Heroin, Hydromorphone, Methadone, Morphine, Opium, Oxycodone | Opium – Non-synthetic narcotic extracted from the poppy plant, made into a liquid, powder or solid. Opium poppy is | Opium – Aunti, Aunti Emma, Big O, Black pill, Chandu, Chinese Molasses, Dopium, Dream Gun, Fi-donie, Gee, Guma, Midnight Oil, Zero | Opium • Can be smoked or injected intravenously • Taken in pill form • Used in combination with other drugs, such as marijuana and/or methamphetamine | Opium • Euphoric rush, relaxation and relief of physical pain • Slow breathing, seizures, loss of consciousness • Addictive • Coma or death |

| | | | | |
|--|--|--|--|--|
| | key source for many narcotics. | | | |
| Narcotics (Opioids) Includes Fentanyl, Heroin, Hydromorphone, Methadone, Morphine, Opium, Oxycodone | Oxycodone – Semi-synthetic opioid drug prescribed for pain as Tylox®, Percodan®, OxyContin®. | Oxycodone – Hillbilly Heroin, Kicker, OC, OX, Roxy, Perc, Oxy | Oxycodone • Pills and tablets chewed or swallowed • Inhaling vapors by heating tablet on foil • Crushed and sniffed or dissolved in water and injected | Oxycodone • Feelings of relaxation, euphoria, pain relief • Addictive • Chronic use of oxycodone with acetaminophen may cause severe liver damage • Overdose may lead to coma and possible death |
| Steroids | Steroids – Synthetically produced versions of testosterone, the male hormone used to promote muscle growth, enhance athletic performance, improve physical appearance. | Steroids – Arnolds, Gear, Gym Candy, Juice, Pumpers, Roids, Stackers, Weight Gainers | Steroids • Injected intramuscularly • Gels, creams, transdermal patches • Tablets, sublingual tablets and capsules | Steroids • Many effects depending on age, sex, the type, length of time used. • In males: stunts growth, acne, shrinks testicles, enlarges breasts • In women, deepens voice, increases facial and body hair, acne, menstrual irregularities • Dramatic mood swings, impaired judgment, increased levels of aggression and hostility • Increased risk of |

| | | | | |
|--|--|--|--|---|
| | | | | heart disease, liver damage • Addiction |
| Stimulants Includes Amphetamines, Cocaine, Khat, Methamphetamine | Amphetamines – Prescription stimulants used to treat Attention- deficit hyperactivity disorder (ADHD). Used as a study aid, to stay awake, and to suppress appetites. Prescribed as Adderall®, Concerta®, Dexedrine®, , Focalin®, Metadate®, Methylin®, Ritalin® | Amphetamines – Bennies, Black Beauties, Crank, Ice, Speed, Uppers | Amphetamines • Orally or injected. “Ice” or crystallized methamphetamine hydrochloride is smoked | Amphetamines • Similar to cocaine, but slower onset and longer duration • Increased body temperature, blood pressure and pulse rates, insomnia, loss of appetite, physical exhaustion • Chronic abuse produces a psychosis that resembles schizophrenia: paranoia, hallucinations, violent and erratic behavior • Overdose can be fatal |

| | | | | |
|--|--|--|---|---|
| Stimulants Includes Amphetamines, Cocaine, Khat, Methamphetamine | Cocaine – White, crystalline powder derived from coca leaves. Cocaine base (crack) looks like small, irregularly shaped white rocks. | Cocaine - Coca, Coke, Crack, Crank, Flake, Rock, Snow, Soda Cot | Cocaine • Snorted • Dissolved in water and injected • Crack cocaine is smoked • Cocaine users usually binge on the drug until they are exhausted or run out of cocaine | Cocaine • Smoking or injection creates an intense euphoric “rush” • Tolerance builds quickly, easy to overdose • Cardiac arrhythmias • Increased blood pressure and heart rate • Restlessness, irritability, anxiety, paranoia • Insomnia, loss of appetite • Stroke or death • Sudden cardiac arrest • Convulsion • The crash that follows a high is mental and physical exhaustion, sleep, and depression lasting several days. Following the crash, users crave cocaine again. |
|--|--|--|---|---|

| | | | | |
|---|---|--|---|---|
| <p>Stimulants Includes Amphetamines, Cocaine, Khat, Methamphetamine</p> | <p>Khat – Stimulant drug made from the leaves and twigs, evergreen shrub. Active ingredients are cathine and cathinone.</p> | <p>Khat – Abyssinian Tea, African Salad, Catha, Chat, Kat, Miraa, Oat, Qat, Quaadka</p> | <p>Khat • Chewed • Dried Khat is used as a tea or chewable paste • Smoked, sprinkled on food</p> | <p>Khat • Manic behavior with grandiose delusions • Chronic use can cause depression and suicide • Hallucinations, paranoia, nightmares • Euphoria, increased alertness and energy, hyperactivity • Increase in blood pressure and heart rate • Cardiac complications • Insomnia, gastric disorders</p> |
| <p>Stimulants Includes Amphetamines, Cocaine, Khat, Methamphetamine</p> | <p>Methampheta mine – Stimulant that speeds up body's system that comes as pill or powder. Available in prescription as Desoxyn®, to treat obesity and ADHD. Crystal meth resembles glass fragments and is an illegally altered version of the prescription</p> | <p>Methampheta mine – Meth, Speed, Ice, Shards, Bikers Coffee, Stove Top, Tweak, Yaba, Trash, Chalk, Crystal, Crank, Shabu</p> | <p>Methamphetami ne • Powder, pill • Smoked, snorted, injected • To intensify the effects, users may take higher doses of the drug, take it more frequently, or change their method of intake</p> | <p>Methamphetamin e • Highly addictive • Agitation, increased heart rate and blood pressure • Increased respiration and body temperature • Anxiety, paranoia • High doses can cause convulsions, cardiovascular collapse, stroke or death</p> |
