

## HIGH SCHOOL GRADUATES: 2022 PERFORMANCE AS COLLEGE FRESHMEN: 2023

The Academic Performance of High School Graduates summary is provided to assist you in assessing the overall academic performance and participation of your recent high school graduates at the Maricopa Community Colleges (MCCCD). The statistics are based on Arizona freshmen attending the summer, fall, or spring terms immediately following high school graduation. Students self-report the high school they attended when they register for classes. This information can be accessed on the web at: <https://www.maricopa.edu/about/institutional-data/az2040-reports>. **Number Enrolled/Percent Enrolled (Your High School/All Arizona High Schools)**  
 These statistics are based on the number of students who enrolled in an English or math course at the community college in the summer, fall, or spring terms immediately following high school graduation. The percent distribution indicates where your students entered the curriculum as compared to other Arizona high school graduates. The percentages are computed based on the total number of high school graduates enrolled at the community college (see Summary Characteristics); therefore, the percentages do not sum to 100 percent. The difference is due to those not taking any English or math during the summer, fall, or spring terms following graduation from high school.

**Average Grade** is calculated based on the students that received a grade of A, B, C, D, or F in the First English Course or First Math Course. Grades are assigned a numerical value (A = 4.0, B = 3.0, C = 2.0, D = 1.0, F = 0). For the First English Course or First Math Course, the numerical values are summed and then divided by the number of students that received a grade of A, B, C, D, or F.

**Percent of students with a Grade of 2.0 or Higher (Your High School/All Arizona High Schools)**  
 This is the percent of your graduates who received a grade of 2.0 or higher in the first English or math course attempted.
