# MARICOPA
COMMUNITY COLLEGES

Student Center **UPDATE**

Your Maricopa Student Center is being updated to provide you with a modernized design and a more user-friendly layout.

The functionality is very similar; however, the navigation, look, and feel are different! The Home Page has a Tile layout (at right) **that contains all the same functions and features**.
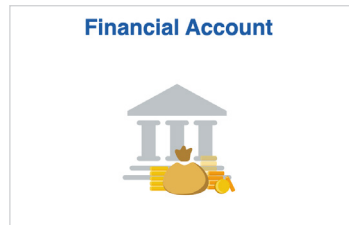

Explore each tile and learn more about your new Student Center to find your most used features!

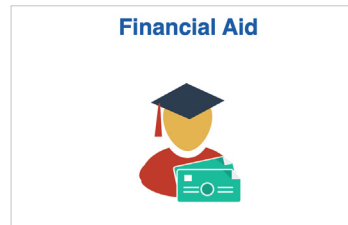

Academic Progress

The Academic Progress tile contains information related to your college enrollment and program of study, along with access to run your Degree Progress Report. You can view your assigned advisor, Pathway Planner (semester by semester), What-If reports to see how close you are to graduating, and credits you have transferred.
