	Courses offered out of Arizona including distance learning, to non resident out-of-state students	\$253.00	\$379.50	\$253.00	\$379.50	This rate applies to out-of-state students who are taking distance learning courses or students who are taking classroom-based credit courses through a contract agreement between MCCC and the company they work for. This rate does not apply to Study Abroad Programs as there is a separately calculated rate for these students. The nonresident tuition rate of \$253 per credit hour for distance learning courses applies to students who both reside in the state and as well as out-of-state. Students not qualifying for resident tuition would pay the nonresident rate whether taking the course in Arizona or in their state of residence. If the distance learning non-resident out of state student is an eligible resident of a WICHE state, the lower Western Undergraduate Exchange Program Rate may be charged.

	Educational Service Partnership (ESP) Tuition Rate	\$71.00	\$71.00	\$71.00	\$71.00	Various Maricopa Colleges have been offering certificate programs to their business, industry and governmental partners as part of their mission to meet the needs of its communities. Each ESP partner provides, at their own cost, the adjunct faculty, training materials, and the required facilities/equipment. Currently, if the colleges had to pay for these materials and services, the cost would be covered by in-state tuition. Due to these significant in-kind contributions by ESP partners, the instructional costs are avoided, which in turn reduces MCCC costs. The ESP in-state tuition rate of \$71 per credit reflects the significant in-kind contribution that our ESP business, industry, and government partners make to the MCCC.

	Open Educational Resources (OER)	Actual Cost not to exceed \$40	Actual Cost not to exceed \$40	OER materials are teaching, learning, and research resources that are copyright-free or have been released under a copyright license that permits others to reuse, revise, remix and redistribute them. Examples of OER include: full courses, course modules, syllabi, lectures, homework assignments, quizzes, lab and classroom activities, pedagogical materials, games, simulations, and many more resources contained in digital media collections from around the world. While openly licensed, there are times that fees are associated with maintaining these resources as well as adding robust openly licensed homework systems, early alert systems and adaptive content systems which can lead to greater student success. An OER fee of up to \$40 would enable courses to utilize these resources and reduce the cost of materials for students. The funds would be charged to students in only those sections using these OER systems and would be a pass through to the vendor, no funds would be pooled.
