CAREER GUIDE

Table of Contents

Chancellor's Letter

Welcome! We are delighted to welcome you to Maricopa Community Colleges. College is a special time in your life where you make new friends, find your passion, and start planning for a professional career. Career planning is essential to your future success and will give you a distinct advantage in today's workforce. This career guide will help you assess yourself, explore your options, and make decisions to achieve your career goals.

At Maricopa Community Colleges, we embrace our responsibility as one of Arizona's largest providers of workforce training. Our students contribute to the overall success of our community and economy by gaining careers as nurses, firefighters, police officers, chefs, computer programmers, engineers, web developers, becoming a vital resource for Maricopa County businesses and the workforce. Our goal is to improve your access to high-quality education at an affordable price, so you can develop skills that are in demand in the greater Phoenix area and beyond.

The following pages are filled with information on hundreds of job fields, including projected salary ranges for sample jobs and other resources to help you arrive at your career destination. Take time to explore how your interests and skills intersect with different career paths to help you communicate the value you can bring to employers.

Career development is a continual and flexible process that adapts to inevitable changes in your interests and the workplace. Whether you are just starting to consider college, want to advance in your career, or start a new career, you will find information on the coursework, certificate programs, and degrees to support your success.

Whatever your educational goal, we are here to get you ready for the next steps in your life.
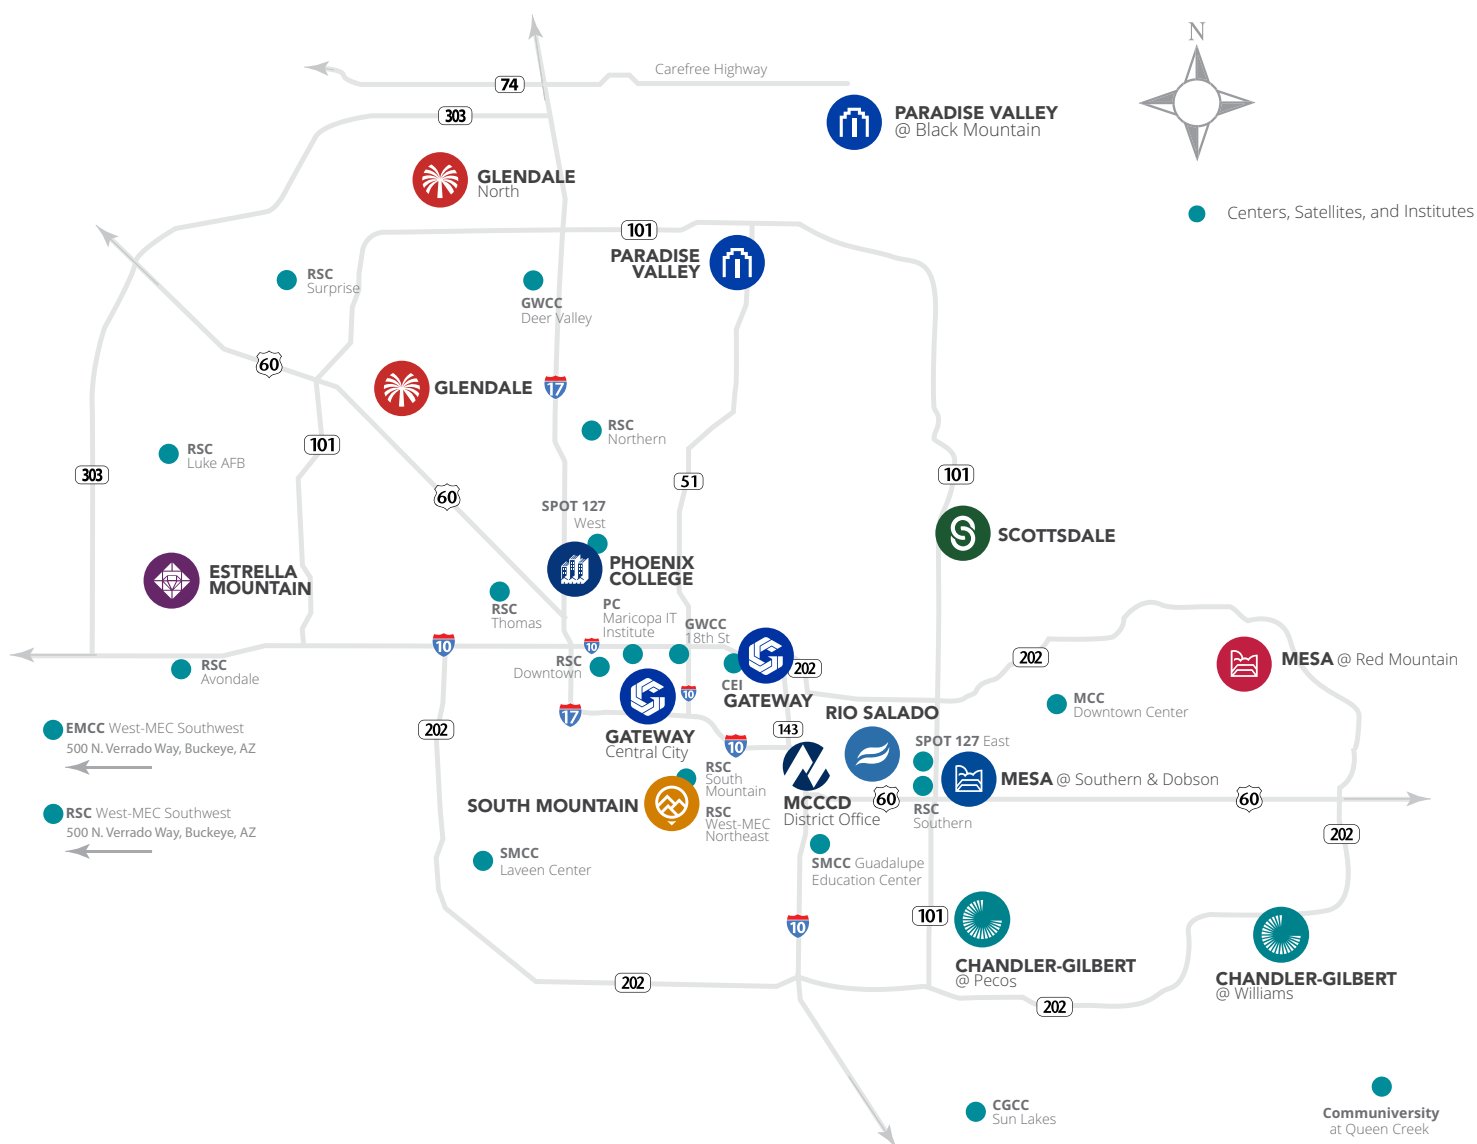

Sincerely,

Steven R. Gonzales, Ed.D.
Interim Chancellor of the Maricopa County Community College District

Who We Are

We're more than just ten colleges. Maricopa Community Colleges is the sum of our students, faculty, and staff. We are also an integral part of our local communities and industries and those we interact with daily.

Join our community today, and prepare for your future! Enjoy a flexible schedule and different ways to attend classes such as in-person, online, Live Online, or a hybrid version.

Welcome to Maricopa Community Colleges, where educating and preparing you for your career is our top priority!

Preparing for your career is one of the most important decisions you will make, so we've created this Career Guide to assist you, whether you've decided on your career path or are still unsure. In the pages of this guide, you will discover helpful resources and useful information such as available programs at Maricopa Community Colleges, career fields, projected salary ranges, and more.

Attending Maricopa Community Colleges is the Smart Choice

So what makes Maricopa Community Colleges one of the best choices when preparing for a career? There are numerous reasons why attending one of our 10 colleges is the smart choice, whether you want to receive certified training to enter the workforce as soon as possible, earn an associate degree, or get a head start on your bachelor's degree.

Workforce training — We're the number one provider of workforce training in Arizona with partnerships with major companies like Apple, Amazon, Microsoft, SRP, and Boeing.

Affordable — Graduate with up to 75 percent less debt than at a university and potentially save tens of thousands of dollars.

Financial assistance — Get help paying your tuition with scholarships offered by us, the Maricopa Foundation, through Federal Grants, and other means.

Excellent education — Attend academically challenging courses taught by instructors who often have industry experience and still work in their field.

Ultimate in flexibility — Attend in-person, Live Online, traditional online, or hybrid. Whether weekday, weekend, or evening, create a schedule that works for you.

Smaller class sizes — Get more individual attention than at a university without having to compete for attention.

Close to home — With 10 accredited colleges and 31 convenient satellite locations, you can attend close to home, save money, and have family and friends support.

Credit transfer — Attend two years and then easily transfer to one of our 40+ university partners to complete a bachelor's degree.

$5-6 per clock hour — Program costs are estimated based on the average number of clock hours to complete the program.

Tuition subject to change. For a complete fee schedule visit: www.maricopa.edu/future-students/tuition-fees

Career Planning and Resources

Early College Programs

Our Early College programs can help you get a head start on your college journey and earn college credits while still in high school. www.maricopa.edu/high-School-students

Dual Enrollment — Take high school classes and earn college credit simultaneously in courses taught by a teacher certified to teach college-level material.

Concurrent Enrollment — Attend college classes online or at one of our convenient community college campuses.

Achieving a College Education (ACE) — Qualify for a scholarship program that helps eligible high school students overcome potential roadblocks and prepare them for college. ACE students can earn up to 24 credit hours by attending college classes during the summer and on Saturdays.

Hoop of Learning — Earn college credit as a Native American high school student. Get on-campus experience, attend with other Native students, access college resources, learn about scholarships and financial aid, and receive one-on-one advising.

University Transfer

Your projected career path may require you to earn a bachelor's degree. The great news is you can start your bachelor's at a Maricopa Community College. You'll potentially save tens of thousands of dollars on tuition with our low tuition rate while earning a quality education from experienced instructors. We have over 50 transfer partnerships with other institutions to simplify the process, including Arizona's three public universities.

For more information on university transfers, visit: www.maricopa.edu/university-transfer

Transfer 75 Credits (or More) to an Arizona Public University

When you earn an Associate in Applied Science (AAS) degree, you can transfer up to 75 credits to Arizona State University, Northern Arizona University, or the University of Arizona and apply them toward the 120 credits needed to earn a Bachelor of Applied Science (BAS) degree.

Northern Arizona University will also accept up to 90 transfer credits that you can apply to a Bachelor in Interdisciplinary Studies; a Bachelor of Science, Allied Health; a Bachelor of Science in Education (Career and Technical Education); and a Bachelor of Science in Nursing (for registered nurses).

Visit www.aztransfer.com for more information. Contact an academic advisor to discuss your transfer opportunities.

Get Credit for What You Already Know

You deserve credit for the college-level learning you earned before attending Maricopa Community Colleges. Find out more and how you can apply for a Prior Learning Assessment evaluation: www.maricopa.edu/future-students/assessment-placement/prior-learning-assessment

Up Your Game in No Time with a Certificate

Want to become more competitive in your field or learn a new skill quickly? Check out our certificates that take 15 credit hours or less to complete. Many of these focus on meeting industry or partner organization needs and can lead to a career right away!

For more information, visit: www.maricopa.edu/fast-track

Make your next opportunity happen here!

Maricopa Community Colleges PipelineAZ

Maricopa Community Colleges PipelineAZ is an online career management tool you can use to search for jobs and internships (posted daily). You can explore Fields of Interest, discover the right career for you, and find which of our ten colleges offer the program you are interested in.

Visit mcccd.pipelineaz.com to register, build your profile, and explore your opportunities.

Career Services

It's never too early in your studies to start working on your career path. Career Services is ready to assist you with finding the right career path and planning your education to make your career happen.

They will also work with you to:
- Identify your strengths and job skills
- Create an eye-catching professional resume
- Start a targeted job search
- Explore internships to build work experience

Get Help Paying for College

Your academic journey can be fun, exciting — and affordable. When attending Maricopa Community Colleges, you'll have numerous funding options you can apply for to help you achieve your educational and career goals.

Federal Student Aid

This is financial aid offered by the government. Fill out the Free Application for Federal Student Aid (FAFSA) to determine your eligibility for loans, grants, and work-study.

studentaid.gov/h/apply-for-aid/fafsa

maricopa.edu/future-students/financial-aid

Loans
Borrowed money from the government or private sources that requires repayment with interest.

Grants
An endowment from the government or another organization that you do not have to repay.

Work-study
A federal program that lets you work part-time — often in a job related to your course of study — to help pay tuition.

Scholarships
Schools, organizations, and individuals offer thousands of awards that you do not have to repay.

Workforce Funding

The Workforce Innovation and Opportunity Act (WIOA) legislation provides Department of Labor (DOL) funding to improve our workforce system and help get those with significant barriers to employment into high-quality jobs and assist employers in efforts to hire and develop employees.

MCCCD works in collaboration with ARIZONA@WORK - Maricopa County and City of Phoenix. To learn more about programs that are WIOA approved, please visit:
info.maricopacorporate.com/wioa-mcccd

Employee Tuition Reimbursement

A plan that lets your employer cover some or all of your tuition as long as it falls within company guidelines.

Payment Plan

An option to pay for your classes by making smaller monthly tuition payments instead of one large payment upfront.
www.maricopa.edu/future-students/payment-options

Veterans and Military Funding

Scholarships, grants, low- or limited-interest loans, tuition assistance, and other benefits are offered by the U.S. government to veterans and active-duty military as well as family members.
district.maricopa.edu/consumer-information/veterans-active-duty/benefits

Maricopa Scholarships

Maricopa Community Colleges offers scholarships funded by the District and by the Maricopa Foundation.
maricopa.edu/future-students/financial-aid/Scholarships

Honors Program Awards

These awards for academic achievement include the Presidents' Honors Scholarship for incoming first-year students and the Honors Achievement Award for current students.
www.maricopa.edu/current-students/honoRSC

Finding the Right Career Path for You

One of your most critical decisions in life will be how to make a living. You'll naturally want a job with good earning potential, but finding the right career is equally important. You'll want one suited to your skills, personality, and interests that lets you grow professionally and personally. Choosing the right career path will help you find meaning and motivation in your work and provide you with a sense of fulfillment and happiness.

Do I Need a Certificate? Or Do I need an Associate or Bachelor's degree?

The answer to this question depends on both your career and life goals as well as how quickly you're looking to enter the workforce.

Certificates target specific jobs and skills

Certificates are non-degree awards that can take anywhere from a few weeks to two years to complete. The skills and training you'll receive will appeal to employers and help you stand out from other applicants. Certificate training programs can also add specializations to your existing skills, opening up new job and earning opportunities.

An **associate degree** leads to a job or a bachelor's degree

When obtaining an associate degree, you'll develop skills that will help you start or change your career. An associate degree gives you the flexibility to enter the workforce, or you can apply the credits you earn toward getting a bachelor's degree.

A **bachelor's degree** opens up new opportunities

A bachelor's degree can give access to more job opportunities and career specialization. Maricopa Community Colleges has over 40 university transfer partners allowing you to complete the first two years of study at one of our colleges, saving thousands of dollars, before transferring. We're also working toward offering our own bachelor programs in the near future.

Fields of Interest

We use Fields of Interest to organize our degrees and certificates that share similar areas of study, allowing you to identify your skills and interests and match them to a career path that's best for you. www.maricopa.edu/degrees-certificates

Getting Started

Once you've decided to attend Maricopa Community Colleges, getting started is simple. Follow our Enrollment Steps and download the accompanying guide at www.maricopa.edu/become-a-student

Here is a brief overview:

1 Fill out your online admission form and choose which of our ten colleges to enroll at.

2 Log in to your Student Center to view additional tasks to complete. Determine which first-year math, English, and reading courses will best be suited for you. Attend a New Student Orientation.

3 Register for your classes using the 'Find a Class' and 'Add a Class' functions.

4 Pay your tuition and fees selecting from various arrangement options.

EdReady

Getting placed into the appropriate level of first-year English, math, and reading classes is important to your overall college success. But what if you don't have a high school GPA, GED, or commonly used test scores like the SAT or ACT? Not a problem. You can use our free, EdReady course placement service to determine your placement.

Not only that, but EdReady will use your test scores to build you a personalized study path to fill in any knowledge gaps. And if your scores don't fall within the required range, you can keep working in EdReady to improve them until you've mastered the concepts needed for placement. maricopa.edready.org/home

Student Center

When you log in to your Student Center, you'll find everything you need to get started and stay on track. With its tiled layout, it's easy to use and navigate. You'll be able to:

- Apply for admission
- Search for classes
- Read course descriptions
- Drop and add courses
- Check your degree progress
- Access grades
- View your schedule
- Check your financial aid status
- View charges and sign up for a payment plan
- Find contact information
- View transcripts
- And more

STUDENT LIFE

When you become part of the Maricopa Community Colleges' community, we encourage you to explore a rich student experience through the many student clubs, activities, and organizations — it's the perfect way to network while creating lifelong friends and memories.

⊘ MyInfo

Download the MyInfo app to stay on top of your semester effortlessly.

The MyInfo mobile app puts highly intuitive functionality in the palm of your hand with access to personalized information, such as class schedules, grades, financial aid status, and more! Download it from the App Store or the Play Store and have the semester's critical information at your fingertips!

Here are just some of its available features:

- Access your advisor information
- Email your instructors and provide feedback
- View FAQs
- Check your financial aid status and award amounts
- View your class schedule and add it to your Google Calendar
- Make payments and see account information
- Display grades for all past semesters and order transcripts
- Visit textbook purchasing links for each of your classes
- Use GPS to find the buildings for each of your classes
- View to-do items and high-priority holds that require action

Download on the App Store

GET IT ON Google Play

APPLIED TECHNOLOGY

The Applied Technology Field of Interest programs give you the hands-on skills you need to design, develop, or repair high-tech equipment and processes. Students studying in these areas often find work after completing introductory classes and are able to expand their knowledge, skills, and education while earning a livable wage.

We offer programs in automotive repair, HVAC, airline operations, CAD, construction, welding, electronics repair, electrical technologies, and much more. Classes are scheduled to accommodate both full-time and working students and align to industry standards.

BEHAVIORAL SCIENCE AND HUMAN SERVICES

If you are motivated to help people, serve your community, and improve the lives of those in need, consider the Behavioral Science and Human Services Field of Interest. Professionals in this field typically work with community members to identify problems and create and implement solutions.

If you aspire to be a first responder, work in the court system, or provide counseling or social work/advocacy services, this Field of Interest offers you the training you need. Some Behavioral Science and Human Services students may go directly into positions as EMTs, paralegals, or behavioral health technicians, while others may pursue a bachelor's degree at a four-year institution.

BUSINESS, ENTREPRENEURIALISM, AND MANAGEMENT

Because our global economy starts with the small business on the corner and extends to the world's most valuable companies, we've designed our business pathways to give you the knowledge and experience you need to be an economic and social leader at every level of your career.

The Business Field of Interest is designed for students who have an interest in business management and administration, finance, hospitality and tourism, culinary arts, and marketing. Programs and majors in this pathway lead to careers in accounting, management, sales, marketing, human resources, owning and operating a small business, and customer service.

"I worked for NASCAR teams for ten years but wanted to focus on engineering. After moving to Arizona, I began looking for community colleges and fixated on Chandler-Gilbert, and it hasn't let me down. I've got amazing teachers, and classes are going well, and I look forward to continuing my curriculum."

Wiliam Boutin, Engineering
Chandler-Gilbert Community College

COMPUTER AND INFORMATION TECHNOLOGY

As technology evolves and data management systems become increasingly complex, the demand for highly skilled technology professionals continues to grow. In the Computer and Information Technology Field of Interest, you can explore careers in gaming, programming, technology support, web design and development, cybersecurity, and more.

We offer advanced laboratories, modern equipment, internships, and flexible and specialized classes where you will learn about computing hardware and software, web-based platforms, networks, telecommunications systems, and other innovative technology. We also make it easy for you to transfer to a four-year program through our partnerships with over 40 colleges and universities nationwide.

EDUCATION

If you love learning and want to help students discover their potential, the Education Field of Interest is for you. With so many Education certificates and degrees to choose from at Maricopa Community Colleges, you're sure to discover one that excites you.

Specialize in early childhood education, K-12 education, multicultural education, eLearning design, and more. While studying education can prepare you to be a classroom instructor at virtually any academic level, becoming a teacher isn't your only career option. You can also learn to design instructional media and materials, work as a school administrator, become a librarian, or provide needed training for workers re-entering the workforce. No matter which path you choose, a background in education can prepare you for a rewarding – and meaningful – career.

STEM

If you want to work in a lab, design electronics, become a pharmacist or doctor, or play with numbers all day, then the Science, Technology, Engineering, and Mathematics (STEM) Field of Interest might be right for you.

Our STEM degrees and certificates can help you prepare for a career where you can use your skills to solve problems and discover new frontiers. STEM careers involve critical thinking and creative problem solving through research and design.

We can get you started on the path to becoming a doctor, pharmacist, science researcher, data scientist/statistician, physicist, engineer, and more. You can also earn certificates in biotechnology and biosciences, electrical engineering, nanotechnology, and other areas. Many of the skills you'll acquire in your STEM coursework can be applied to a variety of fields, like computer science, healthcare, and even sports medicine.

Dawn Schreibman, Entertainment/Social Media
Scottsdale Community College

VISUAL AND PERFORMING ARTS

If you are a creative thinker and like to communicate ideas through visual art, design, dance, music, or theatre, the Visual and Performing Arts Field of Interest may be the right choice for you.

Our Visual and Performing Arts students gain hands-on foundational skills in their chosen mode of expression, including studio art, fashion design, interior design, acting, theatre production, vocal and instrumental performance, and film and audio production. They also develop cultural awareness and the communication, creative, and critical thinking skills necessary for success in a variety of fields.

Students in the Visual and Performing Arts Field of Interest may seek direct employment as artists, musicians, designers, actors or audio producers, or they may pursue a bachelor's or graduate-level degree for a career in teaching, art direction, theatre production, fashion or interior design, media arts, and film.

"I am a STEM major, and I think it's important to have representation in your field because if you never see it, can you truly believe you can ever be it? I want to be that for other young women."

Tiffany Sanchez, STEM
South Mountain Community College

Esports

LEAVE THE COMPETITION IN YOUR PIXEL DUST

maricopa.edu/esports

Are you looking for intense video game action?

Do you want to be part of a tight-knit community of gamers testing yourselves in a virtual arena in an organized competition? If so, then it's time to join Maricopa Community Colleges' Esports League. Our colleges' ten esports teams are actively recruiting players to compete in some of the hottest games out there like Smash Brothers, Fortnite, Valorant, Call of Duty, and more.

What are you waiting for? Ready up, player!

Bonus Round! Don't just play video games — learn to create them! Prepare for your career by enrolling in our video game production program!

Visit: www.maricopa.edu/degrees-certificates/video-game-production

Make It at
PHOENIX FORGE
Makerspace!

Bring your innovative ideas and designs to life at Phoenix Forge, a makerspace that provides creators with tools, workshops, classes, and community-supplied expertise. Powered by GateWay Community College on behalf of Maricopa Community Colleges, Phoenix Forge is open to the public and Maricopa students, faculty, and staff.

Phoenix Forge has cutting-edge tools like 3D printers, Glowforge lasers, and 3D scanners plus a ton of other tools and machines for prototyping and other disciplines like:

- Woodworking
- Jewelry
- Electronics and robotics
- Textile and screen printing
- Welding
- Machining
- Glassmaking and ceramics
